MANUFACTURING MATTERS

MANUFACTURING
MATTERS

SOLUTIONS FOR MANUFACTURING

A proven long-established provider of manufacturing-specific communications, in over 40 countries worldwide.

Panasonic communications platforms have specific features and tailored applications, designed with manufacturing in mind, that enable you to implement advanced business solutions.

Panasonic communications platforms have been designed to enable third-party applications like call recording and unified messaging and more to interface with standards based Panasonic systems.

Take advantage of a wise investment with Panasonic Unified Communications Solutions for manufacturing, in business for over 23 years.

▶ PANASONIC: AN IMPORTANT SOLUTION PROVIDER IN THE MARKET

Panasonic Unified Communication solutions come with an exciting array of business intelligent features and applications specifically designed to improve communications in manufacturing industries.

Panasonic provides solutions for:

- Large, medium and small scale manufacturers.
- Challenging environments.
- Mobile and remote workers.
- Multi-site organisations.

With the Panasonic Manufacturing Solution employees can remain in touch from anywhere on site, thanks to multi-cell cordless DECT systems, along with sophisticated voice mail systems to make sure messages get through, even at busy times.

Advanced solutions allow remote camera integration to help manage large sites, and remote door-phones and door opening systems to simplify life for receptionists and

security staff. Compatibility with a broad range of 'phones, including ruggedised cordless DECT units, means an excellent range of choices where cabling is a challenge.

▶ NEVER MISS A CALL

Built-in auto attendant makes sure that busy shop floor employees can provide an alternative contact point when they are unavailable. Auto attendant provides users with an easy to use menu to guide them directly to the required department, helping to direct calls to the most appropriate site location.

▶ STAY IN TOUCH

DECT wireless mobility can play an important role in a production environment ensuring that key members of staff never miss calls. Mobile staff can be provided with a range of handsets to stay in contact with the office and colleagues alike. Have staff moving between different locations? No problem. Special features make sure that all calls can be answered either from a desk, DECT wireless, or fact, 3G mobile handset. All with the same number.

▶ SAVE MONEY AND REDUCE COSTS

Looking to replace an existing solution? Panasonic systems work with a wide range of IP and digital handset devices, and support migration for 4 generations of handsets, including basic industry standard analogue. Panasonic solutions are very efficient in power consumption, some consuming over 54% less than previous generations of products.

▶ REAL-TIME PRESENCE INFORMATION

Provide your staff with real-time information about the availability of other members using applications designed for desktop PC's operator consoles, and mobile devices.

▶ PANASONIC MANUFACTURING SOLUTIONS

- Cost effective solution for small, medium & larger manufacturing plants.
- Support for wired, wireless and mobile telephones.
- Wide range of business handsets.
- Proven reliability, even in difficult environments.
